-

WORK EXPERIENCE

Frontend Developer - Axel Springer - BILD

April 2024 - Present

- Designing and implementing features and visuals for news and storytelling projects
- Translating designs into functional code for websites and applications
- Collaborating with web developers, app teams, editors, data experts, product managers, designers, and video tech specialists

Frontend Developer - Career Switch

January 2022 - March 2024

- I used the time pre and post collective layoff from Booking.com to transition to frontend development, focusing on self learning and practicing, especially Javascript and React. I accomplished over 40 solo projects, ranging from landing pages to web applications

Customer Service Specialist - Booking.com, Berlin

March 2016 - May 2023

- I developed strong communication skills, particularly in English, a problem-solving mindset and a customer-centric approach during 7 years of customer service experience in the tourism industry
-

SELECTED PROJECTS

Lyriks / Spotify Clone App

[GitHub](#) [Live](#)

- Built with React and Redux
- Shazam API for music recognition and Geo.ipify for location-based features
- Designed a visually appealing, responsive UI with Tailwind CSS
